

# Independent Primary and Urgent Care Perspective on Hospital Relations

# Setting the Agenda

- ▶ North Idaho Family Physicians – Medical Practice Management Services
- ▶ Independent PCP experience
- ▶ Old versus new PCPs
- ▶ One's own experience and environment
- ▶ Challenge of integration
  - ▶ Trends
  - ▶ Lower cost while maintaining quality
  - ▶ New reimbursement system
  - ▶ Regulation
  - ▶ Seeking the silver bullet

# A Perfect Storm...

# How PCPs See Themselves

- ▶ Everyone feels victimized – Change is tough
- ▶ I have a relationship
- ▶ Feel autonomous
- ▶ Getting old
- ▶ Operate outside the hospital
- ▶ Low supply and high demand
- ▶ Not used to competition
- ▶ I don't like risk
- ▶ Low man on the totem pole
- ▶ Technology as savior

# How PCPs See Themselves (Continued)

- 
- ▶ Forced embrace of regulation
  - ▶ Low respect
  - ▶ Leadership
  - ▶ What capital
  - ▶ Little return from a referral
  - ▶ Low cost provider
  - ▶ Please see one more a day
  - ▶ Valuation of Practice
  - ▶ Losing control
  - ▶ We are in it together – storm has us all it all its grip

# What PCPs Bring to the Business Table

- ▶ Hospitals/Large Health Systems Bring
  - ▶ Capital
  - ▶ IT
  - ▶ Business Acumen
  - ▶ Recruitment
  - ▶ Brand
- ▶ Specialist Bring
  - ▶ Expertise
  - ▶ Commodity

# What PCPs Bring to the Business Table (continued)

- PCP
  - Brings market share – power of the referral
  - Who owns the patients
  - What is the value?
  - Traditional Valuation
    - Cost
    - Discounted cash flow
    - Market
  - Cost to build a PCP practice

# What the PCPs See the Hospitals/Health Systems Want

- ▶ Control – when, where, who, & what
- ▶ Work on committees
- ▶ Standardization
- ▶ Lines of authority
- ▶ Stewardship
- ▶ Work within big system – engagement
- ▶ Independent physician as employees

# How Urgent Care See Themselves

- ▶ Somewhat new to discussion
- ▶ Small player
- ▶ Anyone thinks they can do it
- ▶ Many models
  - ▶ Types – free standing, express care, retail clinics, FastTrack ED, telemedicine
  - ▶ Providers – mid-levels, physicians, part-time, retired
  - ▶ Service hours
  - ▶ Locations
  - ▶ Ownership
  - ▶ Other Services, FP, work comp, drug testing, limited pharmacy, physicals, allergy testing, lab screenings, CTs, etc

# How Urgent Care See Themselves (continued)

- ▶ My experience is as independent free standing urgent care
  - ▶ Episodic versus chronic care
  - ▶ Complimentary to PCP and ED
  - ▶ Gap Care
  - ▶ Walk in with on-line waiting
  - ▶ Every patient relatively new
- ▶ More competitive – no schedule
- ▶ They can be bought and sold – traditional valuation
- ▶ Small player in niche market

# How Urgent Care See Themselves (continued)

- ▶ PCPs see UC as competition
- ▶ ED sees as UC competition
- ▶ Get lost in integration
  - ▶ Voice at the table
  - ▶ Loss of profitability
  - ▶ ED relations block by EMTALA

# What Urgent Care Brings to the Business Table

- More like a specialist
  - Can be valued by discounted cash flow
  - Market share depends
  - Helps with high demand – fill the gap
  - Helps with cost savings
- 

# What the PCP See the Hospitals/Health Systems Want

- Control – when, where, who, & what
- Primary care overload
- Lines of authority – told what to do
- Stewardship
- Work within big system - Engagement
- Not concerned with profitability

# What to Do
